

DATASHEET

1206 Package Chip Infrared LED With Inner Lens IR11-21C/TR8

Features

- Small double-end package
- High reliability
- Low forward voltage
- Good spectral matching to Si photodetector
- Package in 8mm tape on 7" diameter reel
- Pb free
- The product itself will remain within RoHS compliant version.
- Compliance with EU REACH

Descriptions

IR11-21C/TR8 is an infrared emitting diode in miniature SMD package which is molded in a water clear plastic With flat top view lens.

The device is spectrally matched with silicon photodiode and phototransistor.

Applications

- PCB mounted infrared sensor
- Infrared emitting for miniature light barrier
- Floppy disk drive
- Optoelectronic switch
- Smoke detector

Device Selection Guide

Part Category	Chip Material	Resin Color	
IR	GaAlAs	Water Clear

Absolute Maximum Ratings (Ta=25)

Parameter	Symbol	Rating	Units	
Continuous Forward Current	I _F	65	mA	
Reverse Voltage	V_{R}	5	V	
Operating Temperature	T_{opr}	-25 ~ +85		
Storage Temperature	T _{stg}	-40 ~ +85		
Soldering Temperature *1	T _{sol}	260		
Power Dissipation at(or below) 25 Free Air Temperature	P_d	130	mW	

Copyright © 2015, Everlight All Rights Reserved. Release Date: 2015/9/26. Issue No:DIR-0000945. Rev: 4

Notes: *1. Soldering time 5 seconds.

Electro-Optical Characteristics (Ta=25)

Parameter	Symbol	Condition	Min.	Тур.	Max.	Units		
Radiant Intensity	le	I _F =20mA	0.5	1.6	-	mW /sr		
Peak Wavelength	λр	I _F =20mA		940	-	nm		
Spectral Bandwidth	Δλ	I _F =20mA		45		nm		
Forward Voltage	V _F	I _F =20mA		1.2	1.5	V		
Reverse Current	I _R	V _R =5V	-		10	μA		
View Angle	201/2	I _F =20mA		100		deg		

Expired Period: Forever

Precautions For Use

1. Over-current-proof

Customer must apply resistors for protection, otherwise slight voltage shift will cause big current change (Burn out will happen).

2. Storage

- 2.1 Do not open moisture proof bag before the products are ready to use.
- 2.2 Before opening the package, the Photodiode should be kept at 10 ~30 and 90%RH or less.
- 2.3 The Photodiode suggested be used within one year.
- 2.4 After opening the package, the devices must be stored at 10°C~30°C and ≤ 60%RH, and used within 168 hours (floor life). If unused Photodiode remain, it should be stored in moisture proof packages.
- 2.5 If the moisture absorbent material (desiccant material) has faded or unopened bag has exceeded the shelf life or devices (out of bag) have exceeded the floor life, baking treatment is required.
- 2.6 If baking is required, refer to IPC/JEDEC J-STD-033 for bake procedure or recommend the following conditions:
 - 96 hours at 60°C ± 5°C and < 5 % RH (reeled/tubed/loose units)

3. Soldering Condition

3.1 Lead solder temperature profile

3.2 Reflow soldering should not be done more than two times.

Copyright © 2015, Everlight All Rights Reserved. Release Date: 2015/9/26. Issue No:DIR-0000945. Rev: 4

- 3.3 When soldering, do not put stress on the LEDs during heating.
- 3.4 After soldering, do not warp the circuit board.

4. Soldering Iron

Each terminal is to go to the tip of soldering iron temperature less than 350 for 3 seconds within once in less than the soldering iron capacity 25W. Leave two seconds and more intervals, and do soldering of each terminal. Be careful because the damage of the product is often started at the time of the hand solder.

5.Repairing

Repair should not be done after the LEDs have been soldered. When repairing is unavoidable, a double-head soldering iron should be used (as below figure). It should be confirmed beforehand whether the characteristics of the LEDs will or will not be damaged by repairing.

Notes

- Above specification may be changed without notice. EVERLIGHT will reserve authority on material change for above specification.
- 2. The graphs shown in this datasheet are representing typical data only and do not show quaranteed values.
- 3. When using this product, please observe the absolute maximum ratings and the instructions for use outlined in these specification sheets. EVERLIGHT assumes no responsibility for any damage resulting from use of the product which does not comply with the absolute maximum ratings and the instructions included in these specification sheets.
- 4. These specification sheets include materials protected under copyright of EVERLIGHT. Reproduction in any form is prohibited without the specific consent of EVERLIGHT.
- 5. This product is not intended to be used for military, aircraft, automotive, medical, life sustaining or life saving applications or any other application which can result in human injury or death. Please contact authorized Everlight sales agent for special application request.
